Infection Control Technologies
26 Kennedy Blvd.
East Brunswick, NJ 08016

Dear Mr. Licker

Infection Control Technologies came to our office to perform Building Hygiene Treatment to control the spread of infection/bacteria. We were very pleased with the professionalism of the workers and the result of the treatment. They were able to work around our schedule without disrupting our practice and without inconvenience to our patients and staff. We would definitely use your services again.

Sincerely,

Noli Dominguez
Office Manager for
Central Jersey Orthopaedic Specialists
